Ambiance

for generations

Constant change has become a constant. Our lives and homes are more and more flexible, conscious and sustainable. Fixed values seem to be increasingly on the way out. We need positive vibes, fun, beauty, intimacy and atmosphere to be able to go with the flow!

In all that's going on, we create restful moments. Silence has a calming effect on the hyperactive, loud times in which we live. Home is a place where the balance is restored and the longing for serenity can be fulfilled. We return to the familiar. We rediscover and appreciate craftsmanship, skills and natural processes.

People move from city to country and back again. It depends on their needs and phase of life, family composition and housing requirements. A Dimplex fireplace, "ambiance for generations", plays a central part in this. It always fits in any interior.

Let Dimplex
inspire you

Vision on living

City smart

In the city we have to be flexible, efficient and sustainable in how we deal with our space and materials. This results in an increasing need for small, flexible homes. Small apartments, containers and tiny homes are good examples of this. A Dimplex fireplace is a sustainable solution and should fit anywhere, even in the smallest space.

Communities

There is an increasing number of communities, where people live together and look after each other, living for example in apartments with individual space that can be subdivided as required by means of flexible wall partitions. There is also an increasing number of spaces where residents make much more use of shared living spaces like a laundry, a roof terrace and a living area. Wherever people gather and share facilities and personal stories, fire will connect them.

The consumer as interior designer

The interior of your home says something about who you are, what you believe in and how you want to live. People are increasingly the curator of their own home, where they create their own design and layout. Inspired by social media and personalised by means of collected objects that are displayed as a showroom of your life. Old and new are combined, we want something new, but we also want to include what is good or tells a personal story.

Flexible and modular living

Important elements in a home are space and comfort, and how you can play around with them. A Dimplex fireplace can add comfort and atmosphere to the available space. Whether that space is in a stately mansion or in a small apartment, there is a solution for every home and for every room. A fireplace is not only suitable for the living room, but also adds value in your kitchen, when you are cooking for your loved ones or friends. Think of the sense of wellness provided by a fireplace when you take a luxurious bath or relax on your balcony after a long day.

The role of fire in your interior

Fire inspires, relaxes, alleviates and reduces your heart rate. Fire attracts people, stimulates contact and connects us. A cosy, comfortable fireplace gives you a sense of relaxation and well-being. Let us inspire you and add value to your interior.

Firesystems

Whatever taste or taste, it is always a Dimplex fire that suits your dreams and budget. Dimplex fireplaces are giving a real 3-D illusion of smoke and fire. Whatever your choice, with a Dimplex fire you always have a warm and closing atmosphere maker in every house. Read more about patented Dimplex firesystems.

Optiflame®

A fire with Optiflame® technology shows calming flames above the lit fire bed, resulting from a soft light reflected in a large number of moving mirrors. Depending on style and mood, the colours of the flame and fire bed can easily be adjusted in some models. Very contemporary! Furthermore, the fire bed of some models can be decorated entirely to your own taste, using materials other than the ones supplied. This means you can personalise your fireplace to suit your own interior design.

Optimyst®

Fire from water. The “fire” in a fireplace with Optimyst® technology consists of unique flame patterns and water mist, moving along freely in the surrounding air. The captivating effect is the result of a combination of energy efficient lighting and safe water mist.

Opti-V® – (Opti-Virtual)

Very lively and intensely glowing flames, with sparks that occasionally fly from the sturdy wood blocks. Opti-V® fire technology consists of a sophisticated combination of HDTV, energy efficient LED technology and a realistic fireplace interior. The calming sound of the crackling fire is a standard feature of all the Opti-V® models.

Revillusion®

Revillusion is our latest flame technology and a new milestone in electric fire. The brick interior gives a unique broad view of life-like flames. These flames rise up without reflection from the life-like, sparkling, glowing wood feature in the centre of the fireplace. The colour and intensity of the light can be adjusted in many different ways with the easy-to-operate remote control. The light view can be adjusted precisely to the required atmosphere, the style and the surrounding light.

CASSETTES

Picture the perfect fireplace. But forget about venting and heat, because flames are made of pure water vapour and LED light. Flames you can reach out and touch. The revolutionary Optimyst® Cassette models redefine the electric fireplace and enable you to add a dramatic fire feature to any space, with stunning realism.

Cassette 250

Optimyst®

The Cassette 250 is the smallest of the Dimplex Cassettes Series. Yet, it offers the same, revolutionary Optimyst® fire and smoke effect, with free floating flames, made of cold water vapour and LED light: safe to reach out and touch, and with a truly three dimensional fire effect. Surprisingly easy to install as well, in nearly any space or furniture object, only requiring a socket and a periodic water refill. In a table or cabinet or on a pedestal? Just let your imagination run free, and enjoy watching this great little fire!

- Due to its small size it can be placed in almost any place in the home
- Ideal for installation in furniture, worktops and other creative and decorative purposes
- Easy refillable water tank, one fill lasts for about 5-6 hours of fire effect
- Atmospheric, comfortable and user-friendly
- Log set available as an accessory

Article number	210388
EAN code	5011139210388
Measurements view of the fire (WxH)	22 x 20 cm
Outside dimensions WxHxD	27 x 14,5 x 27 cm

Cassette 400/600

Optimyst®

The Cassette 400/600 inset fire unit not only surprises with its free floating flame and smoke effect, its modest size and variable flame intensity make it highly suitable for 'endlessly' creative interior solutions: placed as a single unit in a table or inside a gas or wood fireplace, or as a line of fire by simply putting several units alongside each other. The only connection you need is 230V. Just fill the reservoir with fresh water and click on the remote for hours of cozy ambiance, over and over again.

- Ideal for creative projects, to be installed in furniture or used for other decorative purposes
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- View of the fire from 4 sides
- Newly developed with LED lights for lower power consumption with a longer service life
- Crackling logs sound effects with adjustable volume
- Log set available as an accessory

Article number	210791
EAN code	5011139210791
Measurements view of the fire (WxH)	38 x 20 cm
Outside dimensions WxHxD	41 x 18 x 22 cm

Cassette 500 (retail)

Optimyst®

Picture the perfect fireplace. But forget about venting and heat, because flames are made of pure water vapour and LED light. Flames you can reach out and touch. The revolutionary Optimyst® Cassette models redefine the electric fireplace and enable you to add a dramatic fire feature to any space, with stunning realism. Ready to be combined and linked with a Cassette 1000. For that see-through, three-sided, or fully open concept you envisage - in any length, for any location. Possibilities are simply endless.

- Suitable for installation projects and designed to fit into a custom-made frame or fireplace
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- Quick-fit IEC (kettle) connection for an individual fireplace of any length
- Crackling logs sound effects with adjustable volume
- Log set available as an accessory

Article number	210654
EAN code	5011139210654

Cassette L pebbles

Optimyst®

The Cassette L Pebbles is part of the Dimplex Cassette range, known for its unique, free floating flame and smoke effect, but now supplied with a decoration of white pebble stones. Easy to install in bespoke interior projects, only a normal electric socket is required. The flames are made of cold water vapor and light, which is safe, fume free and has a hugely decorative effect over the stones. Its water reservoir can be refilled from the front, which is very practical for frequent use.

- Suitable for installation projects and designed to fit into a custom-made frame or fireplace
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- The water tank is very easy accessible through a drawer in the front
- View of the fire from 4 sides
- Decorated with white pebbles (included)

Article number	202789
EAN code	5011139202789
Measurements view of the fire (WxH)	49 x 20 cm
Outside dimensions WxHxD	51 x 30 x 20 cm

Juneau (XL)

Optimyst®

The Juneau is an electric inset fireplace unit, ready to be installed into nearly any interior space or indoor object, including inactive gas or wood fireplaces. The three-dimensional Optimyst® fire image comes from cold water vapor and light, which is startlingly realistic, can be seen from all sides, and is safe to touch. A practical detail: the water reservoir can be refilled from the front, without removing its glowing log set. In a few words: the Juneau is a perfect basis for great fireplace projects.

- Suitable for installation projects and designed to fit into a custom-made frame or fireplace
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- The water tank is very easy accessible through a drawer in the front
- Log set included

BUILT IN

Dimplex electric built-in fireplaces are available in many designs and finishes. What they share: the simply surprising fire image, the many standard features, the great ease of use and the versatile character, which make them a radiant centerpiece in any interior. Anywhere, because a chimney or gas connection is not necessary. Very contemporary yet ready for the future.

Vivente

Revellusion®

The latest of Dimplex's electric fires with Optiflame® technology can be experienced in the luxurious and all new Vivente models. First of all by its renewed and improved flame effect over realistically glowing logs. Also, there is a choice of ambient light colors to suit your style, plus no less than 4 different back panels to match with most interiors. Smart operation and heating features make it more easy than ever to enjoy the best of this fireplace at any moment of the day or year. All of which can be controlled over a premium remote control. Available in 3 sizes, in front-, 2- or 3 sided layout.

- Comes with four fire liner backings giving the opportunity to pick the perfect fire: Black
- Vermiculite Tile Effect, Black Metallic Ribs, Smooth Metallic Black and Rugged Stone Cladding
- SmartSense: Built for convenience this technology detects when the room is occupied and automatically switches the flame effect on in the evening, while it also switches the product off when it detects an empty room to save energy
- ComfortSaver: With up to an 11% energy saving over traditional heating systems. It adjusts to maintain a precise room temperature, resulting in lower running costs and a more comfortable room temperature
- With HD anti-reflective glass and real flame crackling sounds

XHD Electric firebox

Optiflame®

The Dimplex Firebox is an electric inset fireplace, which can be built into a wall or a bespoke surround. Several extra qualities make the XHD models stand out. Its frameless housing offers maximum view on the flames, the movement speed of the flames is adjustable and the special glow bed has several color themes, customizable to fit your taste and style. The digital thermostat of the built-in heater ensures that the temperature is pleasantly easy to control. The Firebox XHD is available in different sizes.

- Modern firebox designed to be insert in custom-made frames and fireplace surrounds
- Frameless glass front gives an elegant look
- The flame base can be additionally adjusted to more red or blue
- Also manually controllable by an easy touch control
- The flames are adjustable in speed

Winslow

The Winslow wall mount fireplaces are the perfect solution for any space. With the option of easily mounting to the wall, or attaching the tabletop stand, you will never have a problem finding the right place for the Winslow. With heat venting at the bottom of the fireplace, you can have peace of mind that your electronics are safe above. Switch between three included bed options - go contemporary with vibrant crystals, traditional with logs or choose a more adaptable option with pebbles for a traditional or contemporary look. Create that cozy feeling with the touch of a button by adding a colour glow behind your fireplace, or changing the colour of the ember bed, logs and flames. The Winslow Series provides that clean and smooth finished look with the curved glass.

- Included stand allows for tabletop installation
- Backlight color options
- Connect your Electric Fireplace to your smart phone via Bluetooth

Logset 20'
Revillusion®

The Revillusion® logset 20" by Dimplex is an electric fire system designed to instantly revive your non-active fireplace. Very easy to install, safe, maintenance free, and requiring surprisingly little energy. A great way to bring back the fascination of flames moving upwards from the glowing logs, reinstalling your fireplace as a focal point, for great moments around the fire. Fitted with ambient light functions and a heater and even a remote, to let you enjoy your fireplace comfortably at each moment of the day and year.

- Adjustable brightness level to suit the desired ambience
- Mirage Flame panel - partially frosted acrylic panel which works better than a mirror, showing only lifelike flames and no reflections
- The 360° light adds flickering light to enhance the firelight effect
- Enjoy the unique charm of the fireplace 365 days a year using the flames without the heat

Article number	211156
EAN code	5011139211156
